

# PAID online

Professional Automated Invoice Discounting (PAID) is a user friendly, web-based account management system that allows you to manage your invoice finance facility in an easy and time efficient manner.

The system is web based so there is no need to load software onto your computer. Your account is easy and secure to access once you have a standard internet browser.

## PAID allows you to complete a comprehensive range of tasks including:

- View balances and funding availability
- Assign invoices and credit notes
- Request payments
- Print daily and monthly statements
- Print a breakdown of your sales ledger and current accounts
- View cash transactions on client statements for the existing and previous month
- Notify sales, credit notes and adjustments online through our ATS (Assignment Transfer System)

## Key Customer Benefits

- **Simple administration:** This fully automated system encourages paperless and time efficient administration at the touch of a button.
- **Real time updates:** Your account details are updated in real time, so you can benefit immediately from invoices assigned to us. This releases cash for your business whenever you need it.
- **Online security:** Access to your account information is totally confidential and secure.
- **Quality user experience:** The online system has been designed specifically with your needs in mind, ensuring that it is easy to use. With a comprehensive range of support material and an experienced customer relationship team, we can get you up and running as quickly and smoothly as possible.
