State Aid

There may be a restriction on the amount of scheme funding/loan term that can be allocated to the borrower due to State Aid restrictions. Details on the De Minimis State Aid requirements can be found at sbci.gov.ie

Loan amounts and term are dependent upon State Aid² thresholds – SMEs are subject to De Minimis State Aid thresholds. State Aid should not exceed €200,000 in any 3-year period. Borrowing under this scheme will give rise to State Aid benefit to the borrower, and hence there may be a restriction on the amount of funding/loan term that can be availed of by the borrower. It is important to note that the State Aid is not the amount of the loan. Full details can be found at sbci.gov.ie

¹The interest rate that the Bank will apply to all loans up to €500,000 is 4%. For loan proposals greater than €500,000, the Bank will assess each transaction on its own merits (such assessment to include the availability of existing and/ or additional security which may result in an interest rate marginally below 4%). The interest rate may rise if it becomes unlawful for the SBCI to make payments which would otherwise be payable to the Bank under the agreement between the SBCI and the Bank in relation to these loans.

²State aid is defined as an advantage in any form whatsoever conferred on a selective basis to undertakings by national public authorities.
